

Bruce Beverly '73

HERBERT F. TAYLOR AWARD FOR DISTINGUISHED SERVICE TO WPI

Bruce Beverly, we recognize you today with gratitude for the years of service you have generously given to your alma mater.

Your affection for the WPI community became apparent when you were a student. You participated in crew and football, sports that require leadership, perseverance, and the ability to work as part of a team. As a resident advisor, you also provided support and guidance to your fellow students as they pursued their intellectual and extra-curricular aspirations.

As an alumnus, your commitment to the WPI community has only grown stronger. Over the years, you have served as an Alumni Council Class Representative, as a Class Agent, and as a member of the Alumni Association Cabinet. You also helped plan class reunion celebrations.

As a member of the Civil and Environmental Engineering Advisory Board, you

have generously shared your experiences from a long and distinguished career in the civil engineering field. You continue to do this work as an adjunct professor in WPI's Civil and Environmental Engineering Department.

You also have supported WPI financially. You have been a member of the President's Advisory Council, now called the President's Circle, which recognizes leadership annual donors to WPI. A testament to your days on crew and the foot-ball field, you have also supported student athletes through the Poly Club.

Bruce Beverly, you have given generously of your time, talent, and treasure. The WPI Alumni Association is pleased to honor you today with the Herbert F. Taylor Award for Distinguished Service to WPI.
