

DO YOU KNOW WHAT ENGINEERS DO?

Electrical, computer, and mechanical engineers are designing interactive toys for disabled children... biomedical engineers are creating artificial limbs and organs that improve or save lives... environmental engineers are keeping our water clean and safe... aerospace engineers are designing spacecrafts to explore the universe. It's impossible to go through a single day without using something an engineer has helped create.

If you are curious about whether or not science and engineering is for you, want to learn more about what these fields involve, or find out what you can do with a career in science or engineering, come experience Tech Days with us this June at WPI.

ABOUT THE PROGRAM

Tech Days is a fun introduction into science and engineering fields. The program will meet for a week in June. You'll be exposed to various engineering and science fields and what they involve, and you'll have a chance to meet with some current WPI students. You'll participate in various fun hands-on activities to explore several different types of science and engineering.

WHO SHOULD ATTEND?

Students who are in grades 6, 7, or 8 who are interested in finding out more about engineering and related fields.

WHEN AND WHERE?

WPI Campus Center, June 23-29, 2008, 9am—4pm

WHAT DOES IT COST?

The fee for this program is \$300, which covers the student participant tuition, lunch, daily snacks, activities/supplies, and a program T-shirt.
