

# 11<sup>th</sup> Annual Sustainability Project Competition

## ***CALL FOR SUBMISSIONS!***

***The three aspects of sustainability include:  
Environmental Stewardship, Social Justice, & Economic Security.***

Environmental Stewardship embodies the principle that human activities must respect the need to preserve the natural world.

Economic Security represents the understanding that all members of society deserve access to the means to support themselves and their families.

Social justice represents our belief that respect for the dignity of every human being leads to the assurance of equitable rights and opportunities for everyone.

***Do you have a project that addresses one or more of these aspects of sustainability?***
