For Students:

I’ve Tested Positive for COVID-19—Now What?

THREE THINGS WILL HAPPEN:

1. **VERIFICATION**—**WPI HEALTH SERVICES** will re-test students who have no symptoms or known exposure risks and will help you decide where to **ISOLATE** until results are available.

2. **ISOLATION**—You’ll isolate in accordance with **CDC GUIDELINES** at home or on campus at the **WPI TOWNHOUSES**.
   - If you isolate on campus, you’ll be provided with bedding, towels, kitchen utensils, and cleaning supplies. Each dedicated isolation space has a kitchen, bathroom, and in-unit laundry.
   - Your “Go Bag” of clothing, toiletries, prescription medicines, and other supplies will be delivered to you, if you don’t already have it with you.
   - Meals will be delivered to you.
   - WPI Health Services staff will check on you periodically.
   - You’ll have remote access to classes or accommodations, as needed, if you feel well enough to do schoolwork.

3. **CONTACT TRACING**—You’ll talk with a WPI Health Services employee (and possibly a **WORCESTER BOARD OF HEALTH** representative) to discuss where you have been and who has come into close contact with you.
