

The **WPI Department of Mathematical Sciences** and the
WPI Student Chapter of the Association for Women in Mathematics (AWM)
are excited to announce

Sonia Kovalevsky Day 2021

An Empowering Day for Middle School Girls Who Love Math

When: **Saturday, April 10, 10:00 AM – 12:30 PM**

Where: **Online! Link will be sent to participants**

Who: **6th, 7th, and 8th grade girls with interest in math**

In honor of the first woman to obtain her Ph.D. in mathematics, Sonia Kovalevsky Day (SK Day) at WPI aims to bolster our participants' passion and enthusiasm for mathematics in a supportive environment, while meeting girls in the New England area who share similar interests and, of course, having fun!

SK Day 2021 will provide an **interactive online experience** for participants (and their parents/guardians!) to engage in math activities led remotely by WPI students and will feature keynote talks by women leaders in STEM.

For more information and to register to participate, please visit:

<https://www.wpi.edu/news/calendar/events/sonia-kovalevsky-day>

Space is limited, so please register early (no later than March 27, 2021)!

We hope you will be able to join us!

Please contact Prof. Andrea Arnold (anarnold@wpi.edu) with any questions.

SK Day 2021 is supported by a grant from the Women's Impact Network.
