Your pre-arrival test must be a Molecular test (we will not accept an antigen or antibody test). PCR, RT-PCR, NAA or NAAT are molecular tests. The test results need to include the following information:

1. Your name and date of birth
2. The ordering provider
3. The date the test was taken (so we can review that it meets the timing guidelines), aka “Date collected”
4. The type of test (must be a molecular test type - eg. PCR or NAA)
5. The actual result (Negative, Not Detected)
