Student Name: ______________________________ (last) ______________________________ (first) ______________________________ (middle)

Email___________________ Student ID Number __________________________ Full Time ___ Part Time ___

This degree requires a minimum of 30 credit hours.

Note for WPI BS/MS Students: Please delineate any courses you are double counting and also fill out the required Bachelor's and Master's Degree Course Designation Form that can be found on the forms section of the Registrar webpage. When completing your plan of study, make sure to submit your undergraduate tracking sheet, registrar course designation form, as well as this plan of study to be reviewed by your advisor and the graduate program committee. In general, you may double count up to 4 courses towards both degrees. However, only one required MA course for your major may be double counted; for MA majors, this is one course in the 22/3 required units of MA courses. Only 3 undergraduate courses at the 4000-level with grades of B or better may be eligible to double count.

### CORE COURSES (12 credits)
Must include MA 500* and MA 510. Two other courses from MA 502, MA 508, MA 530, and/or MA 540 can be chosen. For students that have taken a rigorous analysis course (at the level of MA 3831 / MA 3832 at WPI) are suggested to substitute MA 500 with MA 503, MA 505, or MA 528.

### MODULE OF INTEREST (12 credits)
Must be an advisor approved combination of 6 credits of coursework in Mathematical Sciences and 6 credits of coursework from a graduate program outside of Mathematical Sciences. Up to 6 credits of upper-level undergraduate courses may be taken for graduate credit with approval.
