## Background and Methodology

- Senior management and the Executive Compensation Committee expressed a desire to conduct a comprehensive faculty market assessment every 3-4 years.
- In late 2016, WPI engaged Sibson Consulting to update the faculty compensation assessment study it conducted in 2012-2013.
- The scope of the study was 245 full-time tenured and tenure-track faculty members ${ }^{1}$.
- Most recent data presented are for base salary in 2016-2017.
- Analysis and findings come from an examination of the College and University Professional Association for Human Resources (CUPA-HR) Four Year Faculty Survey in Higher Education data.
