

# Revision to Indoor Mask Guidance

---

When public speaking at an organized campus activity where all others present are masked and at least 6-feet of distancing of the speaker from attendees is maintained, a fully vaccinated speaker **may at their option** lower or remove their mask while speaking

- For in-person classes and lab instruction, this means that instructors / TAs / speakers may at their option remove their mask while lecturing / speaking, as long as they are fully vaccinated and separated by at least 6 feet from anyone else in the room
- *Effective immediately*
