Executive Summary

First Destination Outcomes Report for the Class of 2019

The Career Development Center (CDC) is pleased to present the WPI First Destination Outcomes Report for the Class of 2019, following standards set by the National Association of Colleges and Employers (NACE). For details on data collection and reporting, see the Methodology section of this report. Highlights for the class of 2019 include:

Knowledge Rate
The Knowledge Rate for bachelor’s degree graduates is exceptionally high (97.4%), much higher than the typical national average of 65% (NACE First Destination Report 2018). The Knowledge Rate is the proportion of graduates for whom at least some career information was collected. The Knowledge Rate for all degree levels combined (bachelor’s, master’s, PhD) was 86.9%.

Success Rate
The Success Rate for bachelor’s degree graduates is 90.1%, higher than the typical national average of 86% (NACE First Destination Report 2018). The success rate is the proportion of graduates who are employed, in graduate school, on active duty military or volunteer service for whom data was collected excluding those “not seeking”. The Success Rate for all degree levels combined (bachelor’s, master’s, PhD) was 92.0%.

Average Starting Salary
The average starting salary for bachelor’s degree graduates increased almost $3,000 from the previous year to $72,072, with over 60% of employed bachelor’s degree graduates reporting their salary.

Employer Engagement
Over 450 different companies recruited on-campus (career fairs, information sessions, on-campus interviews, networking events, career expos) last year and thousands more virtually.

Student Satisfaction
Student satisfaction with CDC services consistently exceeds the national average (Universum survey, 2014-2018).

Methodology and Glossary of Terms

Methodology:

This report is based on data gathered for the graduating class of 2019 which includes students who received their degrees in September 2018, December 2018, or May 2019. Following standards established by the National Association of Colleges and Employers (NACE), the CDC gathers “first destination” career information from a variety of sources. Data collection begins for each class in September and concludes in December of the following year.

Students are asked to complete on-line surveys at various times during the year, students are also encouraged to complete online surveys at the CDC, commencement regalia pick-up, and other events. In the fall, CDC conducts a phone campaign to non-responders, asks faculty and staff to provide information, and collects information using social media and other sources.

Typically about one-third of graduates who are employed provide salary information, these data are considered confidential and are used in aggregate to produce this report. To protect student privacy, average salaries are only reported for those degrees and fields of study where three or more students have reported salary information. In rare cases where only one or two students have reported a salary for a particular degree and field, no average salary is reported (but this data is included for calculation of average salary across all fields of study for that degree level). In all cases, average salary statistics are based on full-time regular employment.

Results for double majors are reported for each major to which their degree applies, however they are counted only once for aggregate statistics (for example, by class or degree level). In this report, NA (“not applicable”) indicates a particular degree is not offered, and zero (“0”) indicates no degree was granted for that class year.

Glossary of Terms:

Knowledge Rate  The proportion of graduates for whom at least some career information was collected
Success Rate  The proportion of graduates employed, in graduate school, serving in the military or volunteer service out of those graduates for whom at least some career information was collected excluding those Not Seeking
Employed  Includes full-time, part-time, contract, entrepreneur, freelance, and post-graduation internships or fellowships, most WPI graduates who are employed work in regular full-time professional positions
Graduate School  Enrollment in some form of graduate study (master or doctoral degree), professional school (law, medicine etc.) or continuing education
Military  Active duty military service
Volunteer Service  Includes community service such as Teach for America, Peace Corps, and similar programs
Seeking Employment  Graduates who have not yet secured any of the Employed options listed above
Planning to Attend Graduate School  Graduates intending to pursue, but not yet enrolled in any of the Graduate School options listed above
Not Seeking  Graduates not seeking employment, graduate school, military, or volunteer service options
Unknown  Graduates for whom career information could not be reliably found
