WPI

Post-Graduation Report
Class of 2018
Executive Summary

Post-Graduation Report for the Class of 2018

The Career Development Center (CDC) is pleased to present the WPI Post-Graduation Report for the Class of 2018 including all degree levels, following standards set by the National Association of Colleges and Employers (NACE). For details on data collection and reporting, see the Methodology section of this report. Highlights for the class of 2018 include the following:

Knowledge Rate
For bachelor’s degree graduates the knowledge rate was 92%, much higher than the typical national average of 65% (NACE First Destination Report 2017). The knowledge rate is the proportion of graduates for whom career data was collected from all sources (i.e. self-report, phone campaign, faculty and staff, social media).

Success Rate
The success rate for bachelor’s degree graduates inched up to 93.0% (94.6% for graduates of all degree levels -- bachelor’s, master’s, PhD -- combined). The success rate is the proportion of graduates who are employed, in graduate school, active duty military or volunteer service for whom data was collected excluding those “not seeking”.

Average Starting Salary
The average starting salary for bachelor’s degree graduates rose more than $2,000 from the previous year to $69,219, typically only about one-third of employed graduates report salary information, these data are confidential and used only in aggregate to produce this report.

Employer Engagement
Over 450 different companies recruited on-campus (career fairs, information sessions, on-campus interviews, networking events, and career expos) last year and thousands more virtually.

Student Satisfaction
Student satisfaction with CDC services consistently exceeds the national average (Universum survey, 2014-2018).

Princeton Review
In its 2019 edition, Princeton Review ranked WPI #5 for Best Career Services!

Methodology and Glossary of Terms

Methodology:

This report is based on data gathered for the graduating class of 2018 which includes students who received their degrees in October 2017, February 2018 or May 2018. Following standards established by the National Association of Colleges and Employers (NACE), the CDC gathers “first destination” career information from a variety of sources. Data collection begins for each class in September and concludes in December of the following year.

Students are asked to complete on-line surveys at various times during the year, students are also encouraged to complete paper surveys at the CDC, commencement regalia pick-up, commencement rehearsal and other events. In the fall, CDC conducts a phone campaign to non-responders, asks faculty and staff to provide information, and collects information using social media and other sources.

Typically about one-third of graduates who are employed provide salary information, these data are considered confidential and are used in aggregate to produce this report. To protect student privacy, average salaries are only reported for those degrees and fields of study where two or more students have reported salary information. In rare cases where only one student has reported a salary for a particular degree and field, no average salary is reported (but this data is included for calculation of average salary across all fields of study for that degree level). In all cases, average salary statistics are based on full-time regular employment.

Results for double majors are reported for each major to which their degree applies, however they are counted only once for aggregate statistics (for example, by class or degree level). In this report, NA (“not applicable”) indicates a particular degree is not offered, and zero (“0”) indicates no degree was granted for that class year.

Glossary of Terms:

Knowledge Rate: The proportion of graduates for whom at least some career information was collected.

Success Rate: The proportion of graduates employed, in graduate school, serving in the military or volunteer service out of those graduates for whom at least some career information was collected excluding those Not Seeking.

Employed: Includes full-time, part-time, contract, entrepreneur, freelance, and post-graduation internships or fellowships, most WPI graduates who are employed work in regular full-time professional positions.

Graduate School: Enrollment in some form of graduate study (master or doctoral degree), professional school (law, medicine etc.) or continuing education.

Military: Active duty military service.

Volunteer Service: Includes community service such as Teach for America, Peace Corps, and similar programs.

Seeking Employment: Graduates who have not yet secured any of the Employed options listed above.

Planning to Attend Graduate School: Graduates intending to pursue, but not yet enrolled in any of the Graduate School options listed above.

Not Seeking: Graduates not seeking employment, graduate school, military, or volunteer service options.

Unknown: Graduates for whom career information could not be reliably found.
