IRS Criminal Investigation*

**Date:** Tuesday, November 15, 2016

**Place:** 320 Fuller Labs

**Time:** 11:00 am – 1:00pm (discussion followed by pizza)

### **Abstract**

**In a day and age where every citizen is connected by apps and smartphones, financial records are digital and may exist in a global Cloud, society moves towards a cashless society, and where personal and financial information is the “Holy Grail” for cyber thieves, the IRS and the American Taxpayer are a constant target by criminal organizations. This WPI CyberCorps Seminar Series talk takes us into the world of the “Advanced Persistent Threat (APT)” as seen from the eyes of the IRS. Through the continual efforts of Special Agents of IRS Criminal Investigation and its Electronic Crimes program, in partnership with other government agencies and the private sector, the perpetrators of financial crimes are brought to justice in an ever-changing digital landscape. Please join us!**
