Sigma Xi Awards for Outstanding Research

2021 - 2022 Nomination Form

Completed nominations are due on or before **February 21, 2022** to:

Carol Gregoire
Physics Department, Olin Hall 119
(508) 831-5313
cagregoire@wpi.edu

I, _____, nominate _____ for
the 2021 - 2022 Sigma Xi Award for Outstanding Research (*check one*):

_____ Major Qualifying Project

_____ Master's Thesis

_____ Doctoral Dissertation

_____ Post-Doctoral – (New Award)

_____ Junior Faculty Researcher

_____ Senior Faculty Researcher

Nominations are solicited for Outstanding Research Contributions in Science and Engineering taking the form of research and discovery, STEM education, and technology innovations.

Please submit a letter of support describing the reasons for your nomination as well as the nominee's resume/vita (for MQP teams, a resume/vita for each member is required). Single or multiple letters of support will be accepted. We welcome support letters that allow us to assess the local, national, and international impact of the contributions. For student and postdoctoral awards, we are particularly interested in external impact and visibility of the research which may include publications, presentations, conference proceedings, patents, commercial ventures, press coverage, and external awards from a professional society, government agency, or industry-sponsored competition. Additionally, for master's thesis and PhD dissertation nominations, please include the thesis or dissertation with the nomination materials.

All nomination material should be collated into a single PDF document and emailed to Carol Gregoire, cagregoire@wpi.edu.
