2016 Summer Programs

Join WPI for a fun and inspiring summer that will stretch your mind and body.

Summer at WPI is your chance to explore your interests, challenge yourself, and try something new. Make discoveries in science, engineering, or math. Try your hand at video game design, processing evidence at a crime scene, electronic music, or sharpen your athletic skills.

- Day and overnight programs for kids ages 7–17
- Technology programs in robotics, computing, math, music, and more
- Science and leadership advancement just for girls
- Large selection of sports camps for all ages
- Expert instruction by WPI faculty and coaches
- Partial tuition assistance will be available on a limited basis

Full details and registration at wpi.edu/+summer.
Register online beginning February 1, 2016, at 9am.

SPARK — your imagination
SPARK programs enable middle-grades students to engage with hands-on, inquiry-based projects in STEM subjects and activities. The cost includes materials and activities, which you can choose.

JUNIOR ROBOTICS CHALLENGE
Are you an intermediate school student looking to challenge your engineering and robotics skills? The SPARK Junior Robotics Challenge is designed to give you the unique opportunity to design, build, and program autonomous robots to compete. Using the LEGO® Brick 31313 Education Kit, your team will work together to create your own robot that will face off against others in a friendly tournament.

SPARK — your passion
LAUNCH — your career
Are you in 6th-8th grade and ready for the next level? This program is designed to give middle school students a chance to explore more complex programming and design techniques. You’ll work hands-on with equipment, build functional assemblies, and design techniques.

ADVANCED ROBOTICS
Entering grades 6-7 and ready for the next level? This program is designed to give upper middle school students a chance to explore more complex programming and design techniques. You’ll work hands-on with equipment, build functional assemblies, and design techniques.

SUMMER UNDERGRADUATE CLASSES
WPI offers undergraduate classes, online and on campus, at various times for incoming high school students, as well as for those already enrolled in college. These classes can accelerate your graduation, WPI offers summer undergraduate classes throughout their school year.

CRIME SCIENCE SCENE
Whodunit? And why? The answers are in you! Learn investigative techniques from WPI’s expert faculty and graduate students. Attend one or both sessions to immerse yourself in laboratory techniques and unsolved problems that you will experience firsthand on WPI’s campus.

ENGINEERING TECHNOLOGY
In the Engineering Technology program, you’ll learn skills that are the building blocks for many of the jobs of the future. You’ll develop the tools and the mindset you need to adapt and excel in changing technologies and industries that will come together as a force in the workplace by the end of the year.

ATHLETIC CAMPS
Improve your basketball and teamwork skills in a fun and enjoyable atmosphere. Daily training includes drills, lectures, team practice, and game play.
