Walker Magnetics is an industry leader in designing and manufacturing a variety of permanent, electromagnetic, and electro-permanent magnet products. Our lifting magnetics can use for handling pipes, slabs, coils, rails, radio active material and several other applications. We deliver our product line to over 190 countries worldwide.

**CPQ**—“Configure Price Quote” is the current industry lingo for a computerized system that specifies products and builds the BOM. We have a series of products where designs are based on magnetic calculations, rules of thumbs experiences and tables. We want to computerize these design processes to capture the many years of experience of our staff and to provide tools that provide the basis for highly competitive quotes that provide optimal cost effective solutions to the problem.

The company needs 4 engineers to work as a team consisting of a mixture of graduate & undergraduate students, to work about 10 hours each week. Most of the work may be done on campus after an initial meeting at the company. Weekly reports and a summary presentation are required at the end of the project.

Engineering majors- Compile calculations based on designs and experience to CPQ
Computer Science development of app to CPQ using a mobile device, to allow sales representatives to configure quotes quicker.

**WPI Center for Innovative Manufacturing Solutions** [www.wpi.edu/+centerforIMS](http://www.wpi.edu/+centerforIMS)
The project timeline begins in September and should be completed before November 30, 2016. Students will be selected by a brief interview process with the company and should have the following qualifications.

You should be able to describe why you would be a good match for this paid consulting assignment.

ME/MFE/MGE/IE major Students:
1. Interest in the Project
2. Engineering Acuity
3. Basic Research and Organizational Skills
4. Ability to do Internet, Phone, and other basic Searches
5. Knowledge of Electro-perm magnets
6. Presentation Skills
7. Availability Minimum 10 Hrs./Week

CS/MIS major Students:
1. Interest in Project
2. Customer Interaction Skills
3. Knowledge of App configuration
4. Basic Research and Organizational Skills
5. Ability to do Internet, Phone, and other basic Searches
6. Presentation Skills
7. Availability Minimum 10 Hrs./Week

You will work in a team with the goal of providing actionable advice to the company.

If you are interested please email mic-admin@wpi.edu and include a letter explaining why you are a good candidate for one of these positions.

Undergraduates earn $14 to $18/hour.
Initial estimate is 50 hours of work for each student.

Graduate/PhDs earn $18 to $22 per hour.
Initial estimate is for 50 hours for each student.

This opportunity is open to all academically qualified students. A non-disclosure agreement is required.
