

Materials Science and Engineering

Rules and Regulations for Laboratory Use

- 1. Obtain permission from Professor Sisson. Without permission, no one is allowed to use the lab under any circumstances.**
- 2. All new users of the lab must past the Lab Safety training prior to using the lab. The training is offered at the beginning of each academic year, and also online at WPI's Environmental and Occupational Safety website
<http://www.wpi.edu/offices/safety/online.html> .**
- 3. At least two qualified individuals should be present when using any of the sample preparation laboratories.**
- 4. Reserve your sessions before hand.**
- 5. Sign the Log Book prior to starting work.**
- 6. Clean your work space at the end of your session.**
- 7. Wear lab coat, protective gloves and glasses when handling hazardous materials.**
- 8. No one can use the Materials Characterization Facility unless they have passed the training course with Boquan Li.**
- 9. All broken glass and blades must be placed in the sharp waste disposable box provided in Rm. 253 or Rm. 341.**

8/2/11

All MTE Graduates are required to attend.
