Immunization Compliance

University policy, and Massachusetts Immunization Laws, 105 CMR 220.000 and 105 CMR 220.600 require all full time students, and all full-time and part-time Health Science and International Students (including Visiting Scholars and Foreign Exchange students), to be immunized. Students must provide proof of compliance before the start of classes. Failure to submit proof of immunizations will result in an academic hold, and notification to the Dean.

** Graduate students Full Time - 9 credits
