Who should use this manual

This document contains information specific to the MPI Blog theme. This document focuses on the custom features of the MPI theme and assumes that you are already familiar with the WordPress interface and basic WordPress functions such as editing web pages and creating blog articles. If you are not familiar with WordPress, please review the videos and tips at <https://www.wpi.edu/+wordpress>.

The Home Page Layout

The home page has a special layout as shown below. Each of these boxes are optional which allows us to customize each of the different home pages for MPI, CR³, ACRC and CHTE.

Editing the Home Page

To edit the home page, go to the Pages menu and select Home. This page has been customized for the MPI family of web sites. The different editing boxes as described below work the same as the standard WordPress editor.

Header & Slideshow

The header area contains the logo, menu and slideshow.

- Menu: If a new page is added to the web site, it needs to be added to the menu via the WordPress menu manager (Appearance → Menu)
- The slideshow can be modified using the Home Page Slideshow section as described later in this document.

Top of Page

When editing the home page, the content for the Top of Page section is in the topmost box. Note that all of the boxes on the page are optional and if no content is added to a box it will not be displayed. For example, the MPI web site does not use this box, whereas CR³, ACRC and CHTE all do.

The Content Box

The Content Box is appears on the left side of the webpage and is half-width. It's "sister box" is the Right-Handed Content Box.

Right-Handed Content Box

The Right-Handed Content Box is appears on the right side of the webpage next to the Content Box and is also half-width.

MPI Callouts

The MPI Callout section is for the 3 colored boxes that link to ACRC, CHTE and CR³. Although this section is available on the other web sites, it is not being used.

Testimonial

The Testimonial area on the home page is automatically built for you. All you need to do is select the name of the person from the drop-down box. To add new Testimonials, see the section on Testimonials later in this document.

Footer

The Footer section will appear beneath the testimonial. This section is not currently being used on any of the web sites.
