Your feedback makes a difference.

In the survey, we hope you also let us know how you are and ask questions.

## **Ask for Support Checklist:**

Now that we are halfway through the term, it's important to lean on your resources to make sure you feel confident that you have what you need to finish the term strong.

- **Share feedback with Undergrad Studies in this week's [Community Check-in Survey](#) so we can know how to better support you.**
- **Successful students ask for help. If the first exam didn't go as planned or if your group project is feeling hard NOW is the time to reach out. You are part of a community. Don't struggle alone.**
  - Asking for support now gives you time to fix where things are going astray and catch up before the end of the term.  
[Read about asking for help.](#)
  - Track your grades and reach out to your professors with questions.
- **Give feedback to your professors.** If your professor sent out a mid-term survey, make sure to share your thoughts. If you didn't receive a survey, consider joining office hours to share what you love about the course and ask questions about what might not be working for you.
