Executive Summary

First Destination Outcomes Report for the Class of 2020

The Career Development Center (CDC) is pleased to present the WPI First Destination Outcomes Report for the Class of 2020, following standards set by the National Association of Colleges and Employers (NACE). For details on data collection and reporting, see the Methodology section of this report. Highlights for the class of 2020 include:

Knowledge Rate

The Knowledge Rate for bachelor’s degree graduates remains high (84.8%), much higher than the typical national average of 65% (NACE First Destination Report 2018). The Knowledge Rate is the proportion of graduates for whom at least some career information was collected. The Knowledge Rate for all degree levels combined (bachelor’s, master’s, PhD) was 83.2%.

Success Rate

The Success Rate for bachelor’s degree graduates is 91.3%, higher than the typical national average of 86% (NACE First Destination Report 2018). The success rate is the proportion of graduates who are employed, in graduate school, or on active duty military or volunteer service for whom data was collected excluding those “not seeking”. The Success Rate for all degree levels combined (bachelor’s, master’s, PhD) was 92.7%.

Average Starting Salary

The average starting salary for bachelor’s degree graduates increased slightly (1.2%) over the previous year to $72,951, with 64.5% of employed bachelor’s degree graduates reporting salary data.

Employer Engagement

Hundreds of employers recruited on-campus during the academic year and the Career Development Center rapidly pivoted to offer additional virtual recruiting options when the Covid-19 pandemic interrupted regular campus operations in the spring.

Student Satisfaction

Student satisfaction with CDC services consistently exceeds the national average (Universum survey, 2014-2019).

Methodology and Glossary of Terms

Methodology:

This report is based on data gathered for the graduating class of 2020 which includes students who received their degrees in September 2019, December 2019, or May 2020. Following standards established by the National Association of Colleges and Employers (NACE), the CDC gathers “first destination” career information from a variety of sources. Data collection begins for each class in September and concludes in December of the following year.

Students are asked to complete on-line surveys at various times during the year, students are also encouraged to complete online surveys at the CDC. In the fall, CDC conducts a phone campaign to non-responders, asks faculty and staff to provide information, and collects information using social media and other sources.

Typically about half of graduates who are employed provide salary information, these data are considered confidential and are used in aggregate to produce this report. To protect student privacy, average salaries are only reported for those degrees and fields of study where three or more students have reported salary information. In rare cases where only one or two students have reported a salary for a particular degree and field, no average salary is reported (but this data is included for calculation of average salary across all fields of study for that degree level). In all cases, average salary statistics are based on full-time regular employment.

Results for double majors are reported for each major to which their degree applies, however they are counted only once for aggregate statistics (for example, by class or degree level). In this report, NA (“not applicable”) indicates a particular degree is not offered, and zero (“0”) indicates no degree was granted for that class year.

Glossary of Terms:

Knowledge Rate - The proportion of graduates for whom at least some career information was collected.

Success Rate - The proportion of graduates employed, in graduate school, serving in the military or volunteer service out of those graduates for whom at least some career information was collected excluding those Not Seeking.

Employed - Includes full-time, part-time, contract, entrepreneur, freelance, and post-graduation internships or fellowships, most WPI graduates who are employed work in regular full-time professional positions.
