Updated 12/11/2018
Office of Foundation & Corporate Philanthropy

FUNDING OPPORTUNITIES: January – March 2019

Contact Lynn Lancaster or Wendy King in Foundation & Corporate Philanthropy at lmlancaster@wpi.edu or wking@wpi.edu with questions or before approaching a private funder.

➤ Alfred P. Sloan Foundation: Data and Computational Research

- Deadline: Rolling for Letter of Inquiry
- Grant Range: Varies; recent grants range from $15,000 - $912,609

Grants in this sub-program aim to help researchers develop tools, establish norms, and build the institutional and social infrastructure needed to take full advantage of these important developments in data-driven, computation-intensive research. Emphasis is placed on projects that encourage access to and sharing of scholarly data, that promote the development of standards and taxonomies necessary for the interoperability of datasets, that enable the replication of computational research, and that investigate models of how researchers might deal with the increasingly central role played by data management and curation.

For more information: https://sloan.org/programs/digital-technology/data-and-computational-research#apply

➤ AAAS: Marion Milligan Mason Awards for Women in the Chemical Sciences

- Deadline: March 1, 2019
- Grant Range: $50,000

The goal of the Marion Milligan Mason Award for Women in the Chemical Sciences is to kick-start the research career of promising future senior investigators in the chemical sciences. The Marion Milligan Mason Fund will provide four grants of $50,000 every other year to women researchers engaged in basic research in the chemical sciences. Awards are for women who are starting their academic research careers. In addition to research funding, the program will provide leadership development and mentoring opportunities.

Applicants must have a full-time career-track appointment. More than one applicant from the same institution can apply for this award, provided that each application is scientifically distinct.

For more information: https://masonaward.aaas.org/login/indexA.cfm
Amazon: Machine Learning Research Awards

- **Deadline:** Rolling with quarterly announcements
- **Grant Range:** Up to $100K per faculty member and up to $80K per student, plus AWS credits

The AWS Machine Learning Research Awards (MLRA) program funds eligible universities, faculty, PhD students and post-docs under the supervision of faculty, that are conducting novel research in machine learning (ML). MLRA seeks to fund a diverse set of projects across many ML areas and domains. Research areas of interest include ML advancements in computer vision, robotics, life sciences, language, speech, problem-solving, reasoning, and decision-making. The program goal is to enable research that accelerates the development of innovative algorithms, publications, and source code across a wide variety of ML applications and focus areas.

Selected applicants will receive awards that include unrestricted cash funding as well as AWS Promotional Credits. The final award amount will be determined by the awards panel. Award recipients will receive an invitation to attend an annual research seminar and may receive live one-on-one training sessions with Amazon scientists and engineers.

For more information: [https://aws.amazon.com/aws-ml-research-awards/](https://aws.amazon.com/aws-ml-research-awards/)

American Cancer Society: Research Professor Award

- **Deadline:** Letter of Intent due February 1, 2019 (anticipated)
- **Grant Range:** $80,000 per year for 5 years; may be renewed once

Awarded to outstanding mid-career investigators who have made seminal contributions that have changed the direction of cancer research. In general, applicants will recently have attained the rank of full professor. Furthermore, it is expected that these investigators will continue to provide leadership in their research area. Up to two awards are made annually for a five-year term that can be renewed once.

For more information: [http://www.cancer.org/research/applyforaresearchgrant/granttypes/research-professor-grants](http://www.cancer.org/research/applyforaresearchgrant/granttypes/research-professor-grants)

American Chemical Society (ACS): Petroleum Research Fund (PRF)

- **Deadline:** Next Submission Window - February 18, 2019 to March 15, 2019
- **Grant Range:** $110,000 over two years

ACS PRF research grant programs support fundamental research in the petroleum field and development of the next generation of engineers and scientists. Research areas supported include chemistry, the earth sciences, chemical and petroleum engineering, and related fields such as polymers and materials science.

**Doctoral New Investigator** (DNI) grants provide start-up funding for researchers who are within the first three years of their first academic appointment at the level of Assistant Professor. Applicants may have limited or no preliminary results for a research project they wish to pursue, with the intention of using preliminary results obtained to seek continuation funding elsewhere. DNI grants are to be used to illustrate proof of concept, to test a hypothesis, or to demonstrate feasibility of an approach.

**New Directions (ND)** grants stimulate a new direction of research for established faculty and support the careers of their student scientists and engineers. ND grants provide funds to scientists and engineers with limited—or even no—preliminary results for a research project they wish to pursue, who intend to use the preliminary results obtained to seek continuation funding elsewhere. ND grants are to be used to illustrate proof of concept/feasibility. Accordingly, they are to be viewed as seed money for new research ventures.

For more information: [http://www.acs.org/content/acs/en/funding-and-awards/grants/prf/programs/nd.html](http://www.acs.org/content/acs/en/funding-and-awards/grants/prf/programs/nd.html)

#### American Council of Learned Societies (ACLS): Digital Extension Grants

- **Deadline:** January 16, 2019
- **Grant Range:** up to $150,000 for 12-18 months

This program supports digitally based research projects in all disciplines of the humanities and related social sciences. Projects supported by these grants may:

- Extend existing digital projects and resources with content that adds diversity or interdisciplinary reach;
- Develop new systems of making existing digital resources available to broader audiences and/or scholars from diverse institutions;
- Foster new team-based work or collaborations that allow scholars from institutions with limited digital infrastructure to exploit digital resources; and
- Create new forms and sites for scholarly engagement with the digital humanities. Projects that document and recognize participant engagement are strongly encouraged.
- Support projects aimed at preserving and making sustainable established digital projects and content.

For more information: [http://www.acls.org/programs/digitalextension/](http://www.acls.org/programs/digitalextension/)

#### American Heart Association: Transformational Project Award

- **Deadline:** January 23, 2019
- **Grant Range:** $300,000 over three years

The goal of this program is to support highly innovative, high-impact projects that build on work in progress that could ultimately lead to critical discoveries or major advancements that will accelerate the field of cardiovascular and stroke research.

For more information: [https://professional.heart.org/professional/ResearchPrograms/UCM_497208_Transformational-Project-Award.jsp](https://professional.heart.org/professional/ResearchPrograms/UCM_497208_Transformational-Project-Award.jsp)

#### American Heart Association: Founders Affiliate Undergraduate Student Summer Fellowship

- **Deadline:** February 4, 2019 5 pm EST
- **Grant Range:** $5,000 over 10-weeks during the summer of 2019

The goal of this program is to encourage students to pursue careers in cardiovascular research. Research projects with broad relevance to cardiovascular biology and stroke will be considered. Eligible students must be enrolled in a full-time undergraduate program at the time of application submission.

For more information: [https://www.heart.org/en/affiliates/founders-affiliate-student-research-opportunities](https://www.heart.org/en/affiliates/founders-affiliate-student-research-opportunities)
American Honda Motor Co., Inc.

- **Deadline:** February 1, 2019
- **Grant Range:** $45,000 up to $75,000

The American Honda Foundation engages in grant making that reflects the basic tenets, beliefs and philosophies of Honda companies, which are characterized by the following qualities: imaginative, creative, youthful, forward-thinking, scientific, humanistic and innovative. We support **youth education with a specific focus on the STEM subjects in addition to the environment.**

For more information: [https://www.honda.com/community/applying-for-a-grant](https://www.honda.com/community/applying-for-a-grant)

American Institute of Physics (AIP): Congressional Science Fellowship Program

- **Deadline:** January 15, 2019
- **Grant Range:** $77,500 for one year plus relocation, travel & health insurance allowances

AIP, in partnership with the American Physical Society, annually sponsors two scientists annually to spend a year providing analytical expertise and scientific advice to Congress. This enables scientists to broaden their experience through direct involvement with the legislative and policy processes. Fellows gain a perspective which, ideally, will enhance not only their own careers but also the physics community’s ability to more effectively communicate with its representatives in Congress.

For more information: [https://www.aip.org/policy/fellowships/cf](https://www.aip.org/policy/fellowships/cf)

Arthritis National Research Foundation: Arthritis and Aging Research Grant

- **Deadline:** January 18, 2019
- **Grant Range:** up to $100,000 for one year

In a collaborative effort, the Arthritis National Research Foundation and the American Federation for Aging Research are seeking grant applications that focus on studying the underlying mechanisms by which aging processes contribute to arthritis. Priority will be given to applicants in early stage career development (equivalent to assistant professor and without serving as PI on an NIH R01 award).

For more information: [http://www.curearthritis.org/arthritis-aging-research-grant/](http://www.curearthritis.org/arthritis-aging-research-grant/)
Avery Dennison Foundation

- **Deadline:** Rolling; decisions on a quarterly basis
- **Grant Range:** not specified; 2015 range of $3K - $600,000

The Avery Dennison Foundation supports non-profit non-governmental organizations in markets where our employees live and work. Regardless of geography, all the grants we award will extend our strategic giving in support of education, sustainability, and women’s empowerment. Project or programs must satisfy one or more of the following criteria:

**Educational Grant Criteria:**
- Provide direct services to populations who are traditionally underserved because of gender, socioeconomic status, or geography.
- Provide educational improvements to elementary, secondary, post-secondary and/or vocational schools.

**Sustainable Grant Criteria:**
- Provide direct support for projects that address environmental resources and contribute to the social, environmental and economic wellbeing of communities.
- Educate community members about responsible care of the environment, particularly as it relates to the manufacturing industry. Examples include energy and water conservation, waste reduction, recycling, responsible forestry, sustainable packaging, product safety and resource conservation.

**Women's Empowerment Grant Criteria:**
- Provide direct services to address female gender equality, equity and improved quality of life for women.
- Authentic involvement of women and/or community members in the project's design and implementation.

Brain & Behavior Research Foundation: NARSAD Young Investigator Grant

- **Deadline:** January - March 2019
- **Grant Range:** $70,000 over two years

Provides support for young scientists conducting neurobiological research to either extend research fellowship training or begin careers as independent research faculty. Basic and/or clinical investigators are supported, but research must be relevant to serious brain and behavior disorders such as schizophrenia, mood disorders, anxiety disorders or child and adolescent mental illnesses.

For more information: [https://bbrfoundation.org/yi](https://bbrfoundation.org/yi)
The Brinson Foundation: Scientific Research

- **Deadline:** February (last Friday of the month)
- **Grant Range:** In 2015, 12 Scientific Research grants were awarded with an average of $53,000

The Foundation promotes the work of young researchers and is interested in programs on the cutting edge of research that are underfunded or not yet eligible for funding by governmental programs. Grants are made in the following focus areas: **Astrophysics**, **Cosmology**, **Evolutionary Developmental Biology**, and **Geophysics**.

For more information: [http://www.brinsonfoundation.org/scientific-research/](http://www.brinsonfoundation.org/scientific-research/)

Burroughs Wellcome Fund: Postdoctoral Enrichment Program

- **Deadline:** January 16, 2019
- **Grant Range:** $60,000 over 3 years

Supports career development activities for underrepresented minority postdoctoral fellows whose training and professional development are guided by mentors committed to helping them advance to stellar careers in biomedical or medical research.

For more information: [http://www.bwfund.org/grant-programs/diversity-science/postdoctoral-enrichment-program](http://www.bwfund.org/grant-programs/diversity-science/postdoctoral-enrichment-program)

Burroughs Wellcome Fund: Collaborative Research Travel Grants

- **Deadline:** February 1, 2019
- **Grant Range:** $15,000

Supports relatively unrestricted travel for academic scientists, postdocs or fellows. Grants must be used for domestic or international travel to another lab to learn new research techniques or to begin or continue a collaboration to address biomedical questions. Special consideration will be given to applicants with doctoral training in the physical, mathematical, or engineering sciences who are working on biomedical problems.

For more information: [http://www.bwfund.org/grant-programs/biomedical-sciences/collaborative-research-travel-grants](http://www.bwfund.org/grant-programs/biomedical-sciences/collaborative-research-travel-grants)
Carnegie Corporation of New York: Education Program

• Deadline: Rolling for LOI
• Grant Range: in 2017, 112 education grants ranged from $10K to $1.7M+

The Carnegie Foundation Education Program has five Focus Areas:

• **Leadership & Teaching to Advance Learning**: For improving systems of preparing, recruiting, and developing teachers and education leaders to serve the needs of diverse learners.

• **New Designs to Advance Learning**: For developing whole school models that provide more effective learning environments for diverse learners.

• **Public Education**: For supporting research on strategies that can drive parent and family engagement in education.

• **Pathways to Postsecondary Success**: For improving alignment in student learning expectations between K-12 and postsecondary education.

• **Integration, Learning & Innovation**: For advancing integrated approaches across the Corporation’s portfolios and the field that enable greater collaboration, coherence, and dynamism.

For more information on how to submit an LOI: https://www.carnegie.org/grants/grantseekers/how-apply/

Charles A. King Trust Postdoctoral Research Fellowship Program: Basic Sciences Research

• Deadline: February 10, 2019 (anticipated)
• Grant Range: Two-year grants ranging from $95,350 to $110,650

The Charles A. King Trust Postdoctoral Research Fellowship Program supports postdoctoral scientists in biomedical fields at institutions in Massachusetts working under the supervision of an established scientist who is a designated Mentor. Proposals in the basic sciences focused on **cancer**, **blindness** (not visual impairment), or **child health** are highly encouraged.

For more information: https://hria.org/tmf/KingBasic/

Charles Pankow Foundation (CPF): Research Grants

• Deadline: Rolling for Research Need Statements
• Grant Range: No set guideline (past range is $105,000 to $400,000)

Research grants support innovative advances in the design and construction of buildings and facilities in the U.S. with a goal of addressing significant industry need. The products of these research grants are intended to be of immediate and practical use. Every project, beginning with the Research Need Statement, must include an active Industry Champion. The Industry Champion will attest to the need for the intended innovation and will commit to actively advising the research team and/or participating in the research itself.

Typical users of these research outcomes include owner representatives, architects, structural engineers, specialty consultants, construction contractors, construction managers, design team managers, and others.
Although great ideas and interesting individual research projects are always welcome, grants generally align with the CPF’s current initiatives. The list of CPF initiatives may be updated at any time.

For more information: https://www.pankowfoundation.org/apply-for-grants/

➢ Cisco Systems

- **Deadline:** Rolling, with review at the beginning of January, April, July, and October
- **Grant Range:** Varies

Cisco is interested in exploring issues, topics, and problems that are relevant to their core business of **improving the Internet**. Cisco is also deeply interested in adjacent technologies that leverage the power of the network to change the world around us. New RFPs include:
  - Legal Implications for IoT, Machine Learning and Artificial Intelligence Systems
  - Software Defined Networks/P4
  - Social Science: Career/Life Paths of Women in Engineering, Computer Science, and Data Science/Applied Mathematics
  - Security Assurance for Agile, Continuous Deployment and DevOps
  - Robust and Transparent Cryptography

For a full list of open RFP’s visit: [http://research.cisco.com/research-programs.html#rfp-2015092](http://research.cisco.com/research-programs.html#rfp-2015092)

➢ Comcast Innovation Fund

- **Deadline:** Rolling – starting January 2019
- **Grant Range:** typically grants do not exceed $150,000 for one year

The Comcast Innovation Fund offers funding to support research that is of mutual interest to Comcast and the research community. It also provides funding to support open source software development. Types of grants:
  - *Research Grants* provide unrestricted funds to support researchers at colleges and universities. They are geared toward supporting technical research in a wide variety of fields that are relevant to the broadband industry and/or to Comcast specifically.
  - *Open Source Development Grants* fund new or continued development of open source software in areas of interest to Comcast or of benefit to the Internet and broadband industries.

➢ Commonwealth Fund

- **Deadline:** Rolling LOI
- **Grant Range:** Board-level median $215,944; small grants median $33,506

The Fund’s current programs are:
  - Health Care Coverage and Access
  - Health Care Delivery System Reform
  - Advancing Medicare
  - Breakthrough Health Care Opportunities
  - Tracking Health System Performance
  - Federal and State Health Policy
  - International Health Policy and Practice Innovations
• Controlling Health Care Costs

For more information:  http://www.commonwealthfund.org/grants-and-fellowships/grants

➤ Craig H. Neilsen Foundation: Psychosocial Research Grants

• Deadline: Letter of Inquiry due March 29, 2019
• Grant Range: $400,000.00

The Psychosocial Research (PSR) portfolio supports research that addresses the interrelation of behavior, social, psychological and other quality of life factors that will benefit people living with spinal cord injury. The goal of the portfolio is to develop sound data to inform and disseminate best practices that produce better outcomes, including quality of life, for people living with spinal cord injury and their loved ones. Areas of interest include: aging, caregiving, employment, health behaviors and fitness, independent living, self-management and technology access.

For more information:  http://chnfoundation.org/psychosocial-research/

➤ Dr. Scholl Foundation

• Deadline: proposals accepted October 1, 2018 to March 1, 2019  (applications are reviewed as they are received, so applying early in this window is highly recommended)
• Grant Range: no limit; average range $5,000 - $25,000  (1 request per organization per year)  

The Dr. Scholl Foundation is dedicated to providing financial assistance to organizations committed to improving our world. Solutions to the problems of today’s world still lie in the values of innovation, practicality, hard work and compassion. Applications for grants are considered in the following areas, though these categories are not intended to limit the interest of the Foundation from considering other worthwhile projects:
• Education
• Social Service
• Healthcare
• Civic and Cultural
• Environmental

For more information:  https://www.drschollfoundation.com/

➤ Ford Foundation

• Deadline:  Rolling for online idea submission
• Grant Range:  $100,000 plus

Ford Foundation awards grants within seven program areas focused on challenging inequality:
• Civic Engagement and Government
• Free Expression and Creativity
• Equitable Development
• Gender, Racial, and Ethnic Justice
• Inclusive Economies
• Internet Freedom
• Youth Opportunity and Learning

The Ford Foundation is always open to new ideas, and invites you to submit yours through a short online form. They will review each one and be in touch within 45 days if they are interested in learning more.

For more information:  http://www.fordfoundation.org/work/our-grants/

➢ G. Harold & Leila Y. Mathers Charitable Foundation

• Deadline: Rolling for Initial Contact
• Grant Range: up to $1 million+

The Foundation is primarily interested in supporting fundamental basic research in the life sciences. Support is provided for specific projects from established researchers at top universities and independent research institutions within the United States.

For more information:  http://www.mathersfoundation.org/

➢ Gladys Brooks Foundation: Support for Educational Institutions

• Deadline: application period January 29, 2019 through May 31, 2019 [anticipated]
• Grant Range: $25,000-$300,000

Grant opportunities for libraries and education include:

• Libraries: collaborative projects fostering broader public access to global information sources utilizing pioneering technologies and equipment are encouraged.
• Education: endowments to fund scholarships based solely on educational achievements, leadership, and academic ability; buildings, wings, additions and equipment for education.

For more information: http://www.gladysbrooksfoundation.org/guidelines.html

➢ The Gladys Krieble Delmas Foundation

• Deadline: Rolling
• Grant Range: Past giving up to $100,000

The foundation supports the humanities, research libraries, and New York City performing arts organizations, and has a particular interest in encouraging Venetian scholarship. Research library funding is primarily directed toward European and American letters.

For more information: http://delmas.org/

➢ Howard Hughes Medical Institute: Hanna H. Gray Fellows Program

• Deadline: January 9, 2019
• Grant Range: Up to $1,400,00 over four years

HHMI seeks to increase diversity in the biomedical research community. We know that the biggest challenges in science call for diverse perspectives and original thinking. The goal of the Hanna H. Gray Fellows Program is
to recruit and retain individuals who are from gender, racial, ethnic, and other groups underrepresented in the life sciences, including those from disadvantaged backgrounds, early in their careers. We believe these promising scientists have the potential to become leaders in academic research and inspire future generations.

In keeping with HHMI’s “people, not projects” approach to funding, this competition is open to those dedicated to basic research from both doctoral and/or medical training paths in the biomedical and life science disciplines, including plant, evolutionary, chemical and computational biology, as well as biophysics and biomedical engineering. During the duration of the award, Fellows have freedom to change their research focus and follow their own curiosity.

Fellows will receive funding through their academic institution for postdoctoral training and may continue to receive funding during their early career years as independent faculty. The program includes opportunities for career development, including mentoring and networking with others in HHMI’s scientific community.

For more information: http://www.hhmi.org/programs/hanna-h-gray-fellows-program#Overview

➤ Julian Schwinger Foundation for Physics Research

- **Deadline:** Rolling
- **Grant Range:** typically up to $50,000; past giving up to $134,600

The Julian Schwinger Foundation for Physics Research supports:
- research and educational activities for which other sources of funding are typically not available. Highest priority is given to theoretical and experimental research on energy concentrating phenomena.
- scientific workshops, conferences, summer schools and other activities aimed at improving educational opportunities at the undergraduate level and above
- grants for undergraduate research projects

Grants typically do not exceed $50,000, but this is not a strict upper limit. They state that in well-argued cases, the grant value can be higher and sufficient to support a postdoc for two years.

The application procedure begins with submitting a short Declaration of Intent online at any time.

For more information: https://schwingerfoundation.org/application.php

➤ Klingenstein: Klingenstein-Simons Fellowship Awards in Neuroscience

- **Deadline:** February 15, 2019
- **Grant Range:** $225,000 over 3 years

Previously known as the Klingenstein Fellowship Awards in the Neurosciences, this year's awards are the fifth from this joint project of the Klingenstein Fund and the Simons Foundation. The awards are among the nation's oldest and most illustrious fellowships for young investigators in neuroscience research. Aimed at advancing cutting-edge investigations, the awards are presented to highly promising, early career scientists. At this critical juncture in young investigators' careers, when funding can be a challenge, the fellowship awards promote higher-risk, and potentially higher-reward, projects.

For more information: http://www.klingfund.org/
Knight Foundation: Quality Journalism, Media Innovation, Community Engagement & the Arts

- **Deadline:** Rolling
- **Grant Range:** up to $1M+

The Knight Foundation supports transformational ideas that promote quality journalism, advance media innovation, engage communities and foster the arts. The foundation believes that democracy thrives when people and communities are informed and engaged. To learn more about the type of work the foundation funds, please visit their website at: [http://www.knightfoundation.org](http://www.knightfoundation.org).

To apply for funding, the first step is to introduce your idea and your organization. If you are new to the Knight grantee portal, register and start a letter of inquiry. Existing grantees looking to submit a new idea, please log in to the grant portal.

The letter of inquiry is one way to apply for funding but not the only way. Applying to open challenges is a separate process. Learn more about challenges and other funding opportunities.

To go to the Knight Foundation Grantee Portal: [https://knight.fluxx.io/user_sessions/new](https://knight.fluxx.io/user_sessions/new)

Link Foundation - Modeling, Simulation & Training Fellowships

- **Deadline:** Submission starting October 1, 2018 until January 15, 2019
- **Grant Range:** $29,500

Objectives:
- To foster advanced level research in modeling, simulation, and training
- To enable Ph.D. students the freedom to work on their research full time
- To disseminate the results of that research through conferences, journals, and other publications.

For more information: [http://www.linksim.org/](http://www.linksim.org/)

Mabel Louise Riley Foundation

- **Deadline:** Rolling; submit 60 days before quarterly meetings in Mar, June, Sept and Dec
- **Grant Range:** normally $50,000 to $100,000

The Foundation’s grant making is focused on the city of Boston and vicinity. Current priorities include literacy and afterschool programs for disadvantaged children and adolescents; programs focused on the character building of children and adolescents; community development that will benefit low-income and minority neighborhoods; citywide efforts that promote cultural improvements and the arts; and grants that, despite some risk, offer a potential of high impact or significant benefits for a community.

For more information: [http://www.rileyfoundation.com/](http://www.rileyfoundation.com/)

McKnight Endowment Fund for Neuroscience: Memory and Cognitive Disorders Award

- **Deadline:** Letter of Inquiry due March 25, 2019 (anticipated)
- **Grant Range:** $100,000 per year for three years
These awards support innovative efforts to solve the problems of neurological and psychiatric diseases, especially those related to memory and cognition. They encourage research aimed at translating laboratory discoveries about the brain and nervous system into diagnoses and therapies to improve human health. Collaborative projects between basic and clinical neuroscientists are welcomed, as are proposals that help link basic with clinical neuroscience.

For more information: https://www.mcknight.org/programs/the-mcknight-endowment-fund-for-neuroscience/memory-cognitive-disorders-awards/how-to-apply/

➢ McKnight Endowment Fund for Neuroscience: Scholar Award

- **Deadline:** January 7, 2019
- **Grant Range:** $75,000 per year for three years

The McKnight Scholar Awards encourage **neuroscientists** in the **early stages of their careers** to focus on **disorders of learning and memory** with immediate and significant impact on clinically relevant issues.

For more information: https://www.mcknight.org/programs/the-mcknight-endowment-fund-for-neuroscience/scholar-awards/

➢ Microsoft: AI for Earth Azure Grant

- **Deadline:** Rolling

AI for Earth awards Microsoft Azure cloud computing resources, including AI tools, to people and organizations that are working to transform the way we understand and manage our natural resources. Grantees receive access to and training on Microsoft’s innovative data science, machine learning, and visualization tools to improve their work in addressing climate change, protecting biodiversity, improving agricultural yields, and lessening water scarcity.

We accept proposals on a rolling basis and review them four times a year.

For more information: https://www.microsoft.com/en-us/ai-for-earth/grants

➢ Nasdaq Educational Foundation

- **Deadline:** Letter of Inquiry due March 1, 2019 (anticipated)
- **Grant Range:** no set amount

The mission of the Nasdaq Educational Foundation, Inc. is to support programs that further the Nasdaq vision and mission of connecting business, capital and innovative ideas to advance global economies. All proposals must further financial markets literacy and entrepreneurship, in addition to meeting other criteria. Specific requests for proposals will be forthcoming.

New York Stem Cell Foundation (NYSCF): Neuroscience Investigator Award

- Deadline: February 21, 2019 (anticipated)
- Grant Range: 1.5 million over 5 years

NYSCF is soliciting applications from early career investigators for Innovator awards in neuroscience. The goal of this initiative is to foster truly bold, innovative scientists with the potential to transform the field of neuroscience. Applicants are encouraged in the fundamental areas of developmental, cellular, cognitive and behavioural neuroscience, broadly interpreted. Applicants need not be working in areas related to stem cells.

To be eligible, candidates must be within 5 years of starting a faculty (professorship) or comparable position.

For more information: http://www.nyscf.org/for-scientists/neuroscience-investigator-awards

New York Stem Cell Foundation (NYSCF): Stem Cell Investigator Awards

- Deadline: February 21, 2019 (anticipated)
- Grant Range: 1.5 million over 5 years

NYSCF is soliciting applications from early career investigators for awards to be used for exploring the basic biology and translational potential of stem cells. The goal of this initiative is to foster bold and innovative scientists with the potential to transform the field of stem cell research, and advance understanding and use of stem cells in the development of treatments for human disease.

To be eligible, candidates must be within 5 years of starting a faculty (professorship) or comparable position on June 1, 2018.

For more information: https://nyscf.org/programs/extramural-grants/applicants/stem-cell-investigator-awards/

Organization for Autism Research: Applied Research Competition

- Deadline: Letter of Inquiry due March 26, 2019 (anticipated)
- Grant Range: $30,000

OAR seeks to fund studies that expand the body of knowledge related to autism intervention and treatment, produce practical and clearly objective results, have the potential to impact public policy, and provide outcomes that offer to enhance quality of life for persons with autism and their families. While applicants are always free to submit on any relevant area of research or intervention, this year, OAR is placing an emphasis on research that addresses the following targeted areas: augmentative and alternative communication, community-based intervention, behavioral economics, and effective staff training. While there is no guarantee of funding, studies that cover these topics will receive additional scoring credit during the review process.

For more information: https://researchautism.org/research-grants/
Patient-Centered Outcomes Research Institute: Communication & Dissemination Research

- **Deadline:** Letter of Inquiry due January 31, 2019 by 5pm (ET)
- **Grant Range:** up to $2M anticipated (funding announcement open on Jan 3, 2019)

PCORI seeks to fund projects that address critical knowledge gaps in the communication and dissemination process—both the communication and dissemination of research results to patients, their caregivers, and clinicians, and the communication between patients, caregivers, and clinicians—in the service of enabling patients and caregivers to make the best possible decisions in choosing among available options for care and treatment.

For more information:
https://www.pcori.org/funding-opportunities/announcement/broad-pcori-funding-announcements-cycle-1-2019

Research Corporation for Science Advancement: Cottrell Scholar Awards

- **Deadline:** Next Submission Window - February 15, 2019 to May 1, 2019 (anticipated)
- **Grant Range:** $100,000 over 3 years

Eligible applicants are tenure-track faculty members whose primary appointment is in a department of astronomy, **chemistry** or **physics** that offers, the minimum, a bachelor’s degree.

CSA proposals contain a research plan, an educational plan and a clear statement on how the CSA will help applicants become truly outstanding teacher-scholars and future academic leaders. The project plans must be for a period of three years. The ability of applicants to mount a strong and innovative research program and achieve excellence in education and their potential leadership skills are key criteria in the selection of the awards.

For more information: http://rescorp.org/cottrell-scholars/cottrell-scholar-award/guidelines

Robert Wood Johnson Foundation: Evidence for Action

- **Deadline:** Rolling LOI
- **Grant Range:** no explicit range; duration of up to 36 months

**Investigator-Initiated Research to Build a Culture of Health**, Evidence for Action (E4A), a national program of the Robert Wood Johnson Foundation, funds research that expands the evidence base needed to build a Culture of Health. Our mission is to support rigorously designed quantitative, qualitative, and mixed methods research that yields convincing findings regarding the population health, well-being, and equity impacts of specific policies, programs, and partnerships. We are especially interested in research examining the health impacts of programmatic or policy interventions that address factors outside the domain of health care services or public health practice.

Robert Wood Johnson Foundation: Pioneering Ideas Brief Proposal

• Deadline: Rolling
• Grant Range: no explicit range

The goal of the Pioneering Ideas Brief Proposal funding opportunity is to explore; to look into the future and put health first as we design for changes in how we live, learn, work and play; to wade into uncharted territory in order to better understand what new trends, opportunities and breakthrough ideas can enable everyone in America to live the healthiest life possible.

While improving the status quo is vital to the health and well-being of millions of Americans now, the Pioneering Ideas Brief Proposal opportunity reaches beyond incremental changes to explore the ideas and trends that will influence the trajectory and future of health.

For more information: https://www.rwjf.org/en/how-we-work/submit-a-proposal.html

Samuel H. Kress Foundation: History of Art Grant Program

• Deadline: January 15, 2019 (also April 1 and October 1) by 5pm (ET)
• Grant Range: past giving up to $300,000

The History of Art program supports scholarly projects that will enhance the appreciation and understanding of European art and architecture. Grants are awarded to projects that create and disseminate specialized knowledge, including archival projects, development and dissemination of scholarly databases, documentation projects, museum exhibitions and publications, photographic campaigns, scholarly catalogues and publications, and technical and scientific studies. Grants are also awarded for activities that permit art historians to share their expertise through international exchanges, professional meetings, conferences, symposia, consultations, the presentation of research, and other professional events.

For more information: http://www.kressfoundation.org/grants/history_of_art/

Sarcoma Alliance for Research Through Collaboration: Career Development Program

• Deadline: Letter of Intent due January 7, 2019
• Grant Range: $100,000

The SARC Sarcoma SPORE Career Development program was initiated to support the ideas and work of investigators that complement the depth of sarcoma translational research and to help ensure the continual renewal of high-quality scientific endeavors in the SARC Sarcoma SPORE. Career Development Awards are awarded in the amount of $100,000 for one year only. The second year award is pending availability of funds and satisfactory progress of the project.

For more information: http://www.sarctrials.org/funding-opportunities#careerdev

Sarcoma Foundation of America: Research Fund Program

• Deadline: January 31, 2019
• Grant Range: $50,000
The Sarcoma Foundation of America has developed a program to provide grants to investigators interested in translational science sarcoma research.

Accepting applications that focus on the following areas of research:
• Omic characterization of sarcomas and definition of novel targets
• Omic patterns of sensitivity and resistance to existing agents
• Systemic therapy combinations
• Immunotherapy

For more information: http://www.curesarcoma.org/research/research-grants-policy/

➤ Simons Foundation: Collaboration Grants for Mathematicians

• Deadline: January 31, 2019
• Grant Range: $42,000 over 5 years

Each collaboration grant provides $8,400 per year for five years: $6,000 per year for collaboration, travel and research expenses for the awardee; $1,000 per year in discretionary funds for the awardee’s department; and $1,400 per year in indirect costs to the awardee’s institution. The five-year grant will commence September 1, 2019, and end August 31, 2024.

For more information: https://www.simonsfoundation.org/funding/funding-opportunities/mathematics-physical-sciences/collaboration-grants-for-mathematicians/

➤ Simons Foundation: SFARI Research Award

• Deadline: January 19, 2019
• Grant Range: up to $1,300,000

Applications for SFARI Research Awards from individuals who will conduct bold and rigorous research.

The goal of the Research Award is to provide support for investigation of key unresolved research questions in autism, particularly those that connect genetic etiologies to brain function and behavior. Unlike the SFARI Pilot Award, the Research Award welcomes risk and novelty, but these are not required criteria for a proposal to be considered meritorious. Competitive applications will have preliminary data or other relevant groundwork that justifies substantial investment in the proposed topic. In some cases, projects may include those focusing on a central hypothesis where success depends on close collaboration between two or more labs.

For more information: https://www.sfari.org/funding-opportunities

➤ Simons Foundation: Targeted Grants for Mathematics and Physical Sciences (MPS)

• Deadline: Rolling for Letter of Inquiry
• Grant Range: There is no recommended funding limit.

The Targeted Grants in MPS program is intended to support high-risk projects of exceptional promise and scientific importance on a case-by-case basis.

For more information: https://www.simonsfoundation.org/funding/funding-opportunities/mathematics-physical-sciences/targeted-grants-in-mps/
Spencer Foundation: Small Research Grants

- **Deadline:** February 1, 2019 (also, May 1, August 1, November 1)
- **Grant Range:** $50,000 or less

This program aims to fund academic work that will contribute to the improvement of education, broadly conceived. Historically, the work we have funded through these grants has spanned a range of topics and disciplines, including education, psychology, sociology, economics, history, and anthropology, and they employ a wide range of research methods.

For more information: [http://www.spencer.org/small-research-grants](http://www.spencer.org/small-research-grants)

Tufts Health Plan Foundation

- **Deadline:** Letter of Inquiry due January 23, 2019
- **Grant Range:** no minimum or maximum specified

The Tufts Health Plan Foundation invests in communities through grants to nonprofit organizations whose work considers healthy living with a focus on healthy aging.

Vodafone Americas Foundation: Wireless Innovation Project

- **Deadline:** March 5, 2019 (anticipated)
- **Grant Range:** first-, second- and third-place prizes of $300,000, $200,000 and $100,000

The program is designed to recognize the growth taking place in mobile innovation and the potential for mobile and wireless technology to help solve critical social problems around the world. Winners in previous years have received additional funding that has enabled them to further develop and grow their innovations as well as hire talent. The mobile or wireless solution must have the potential to solve a problem in the areas of access to education, health, access to communication, economic development, and the environment/disaster relief. The project must be at a stage of research where an advanced prototype or field/market test can occur during the award period, and the technology should have the potential for replication and large-scale impact. Applicants also should have a business plan or basic framework for financial sustainability and rollout.

For more information: [http://vodafone-us.com/wireless-innovation-project/](http://vodafone-us.com/wireless-innovation-project/)

Marion and Jasper Whiting Foundation: Faculty Travel Fellowships

- **Deadline:** January 28, 2019
- **Grant Range:** 39 awards were made in 2018, averaging $5,486 per fellowship

Present and prospective teachers at the college or university level are welcome to apply for a Whiting Foundation fellowship. The Foundation welcomes applications from all New England colleges and universities. The aim is to stimulate and broaden the minds of teachers so as to improve and enhance the quality of their classroom instruction. Please be advised that travel for dissertation research is not allowed.
For more information: There is no website for this opportunity; contact Foundation & Corporate Philanthropy for application materials

➢ **Whitehall Foundation: Research Grants**

- **Deadline:** Letter of Inquiry due January 15, 2019 (also April 15 and October 1)
- **Grant Range:** $90,000 to $225,000 over three years

The Whitehall Foundation, through its program of grants and grants-in-aid, assists scholarly research in the life sciences. It is the Foundation’s policy to assist those dynamic areas of basic biological research that are not heavily supported by Federal Agencies or other foundations with specialized missions.

Research grants are available to established scientists of all ages working at accredited institutions in the United States. Applications will be judged on the scientific merit and the innovative aspects of the proposal as well as on the competence of the applicant. Research grants of up to three years will be provided. A renewal grant with a maximum of two years is possible, but it will be awarded on a competitive basis. Research grants will not be awarded to investigators who have already received, or expect to receive, substantial support from other sources, even if it is for an unrelated purpose. Research grants normally range from $30,000 to $75,000 per year.

For more information: [http://www.whitehall.org/grants/](http://www.whitehall.org/grants/)

➢ **Whitehall Foundation: Research Grant-in-Aid**

- **Deadline:** Letter of Inquiry due January 15, 2019 (also April 15 and October 1)
- **Grant Range:** $30,000 for one year

The Whitehall Foundation, through its program of grants and grants-in-aid, assists scholarly research in the life sciences. It is the Foundation’s policy to assist those dynamic areas of basic biological research that are not heavily supported by Federal Agencies or other foundations with specialized missions.

The Grants-in-Aid program is designed for researchers at the assistant professor level who experience difficulty in competing for research funds because they have not yet become firmly established. Grants-in-Aid can also be made to senior scientists. All applications will be judged on the scientific merit and innovative aspects of the proposal, as well as on past performance and evidence of the applicant’s continued productivity. Grants-in-Aid are awarded for a one-year period and do not exceed $30,000. For more information: [http://www.whitehall.org/grants/](http://www.whitehall.org/grants/)

➢ **William P. Wharton Trust**

- **Deadline:** Letter of Inquiry due March 1, 2019
- **Grant Range:** $15,000

**General Objective:**
- To support projects that directly promote the conservation, study, and appreciation of nature.

**Specific Objectives (in order of priority):**
- Natural areas preservation, primarily in Massachusetts and New England, including funding acquisitions of land for conservation purposes.
Management techniques designed to improve environmental quality and species diversity.
Bird and forestry research and management, especially at the applied level rather than the theoretical or molecular level.
Creation of materials or projects designed to foster an appreciation of and a concern for wildlife and natural systems.

For more information: http://www.williampwhartontrust.org/index.htm
