Catalog Year Change Request

Students should use this form if they wish to change their program requirements as outlined in the catalog under which they entered the University as a degree seeking student, to a new set of program requirements, as outlined in a more recent catalog.

Students should not use this form to change their major. Major changes are done online in Workday.

Students may only change from their catalog of entry to subsequent catalog. By changing catalogs, a student is responsible for fulfilling all of the graduation requirements in the new catalog.
