Community Check-in Survey:

What mid A term feedback do you have?
Share your answer in the 30 second community check-in.

The check-in is also a place to let us know if there are any tips you want to see in future newsletters, ask any questions you might have, and share a word you want to see in the Glossary of Academic Terms.
Have an academic question you aren't sure who to ask?
Email UndergradStudies@wpi.edu or Virtual@wpi.edu.

Mid A Term Checklist:

- **Give feedback to Undergraduate Studies about how your term is going so far through this week's Community Check-in Survey.** We are committed to making adjustments where we can and need your feedback about what's been working in academics overall this term and what could use some adjusting. Please take 10 minutes or less to share your thoughts.

- **Give feedback to your professors.** If your professor has sent out a mid-term survey, let them know what's working well and what could be adjusted. If you didn’t receive a survey, consider joining office hours to share what you love about the course and ask questions about what might not be working for you.

- **Track your grades.** How are you doing in each of your classes? Adjust your study time accordingly. You could also try making a study group for a class you might find challenging. You could do this on Zoom, Teams, or if you're in person, find a study space on campus to meet.

- **Sophomore Peer Learning Mentoring Program kicks off.** Undergraduate Studies has worked with Academic Advising, and other offices, to develop an academic peer mentoring program for sophomores. **Juniors and seniors**, sign up now to be a mentor. **Sophomores**, sign up to be paired with a mentor. You can also nominate a sophomore or junior/senior you know who would be a great fit!

- **Check your B Term schedule.** Now that we're halfway through the term, make sure your B term schedule is ready to go. With only 4 days between A and B term, you want to be prepared for B term before the break starts so you can rest and relax during the break.

- **Study SMART! Study, Meet, And Review Together on Zoom.** There are times for Physics, Chemistry, Calculus, CS, and all subjects. Learn more by emailing Academic Advising at academic-advising@wpi.edu.

- **Clarify what terms like synchronous and asynchronous mean in the Glossary of Academic Terms from Undergraduate Studies.** We would love to have students propose words to add or edits to definitions. **Share your idea in the Community Check-in Survey!** Thank you for those who already gave input.
Each week, you’ll receive this email to support and guide you through the process of virtual learning. In the meantime, if you have a question related to academics and are having trouble finding the answer, look at our FAQ page or email us at UndergradStudies@wpi.edu or Virtual@wpi.edu.
