

# Sustainability Competition

**To develop a graphic display  
to promote sustainability**

Sponsored by the Office of Sustainability

*In November 2016, WPI approved the new Sustainability Engineering Minor. Every engineering discipline impacts the environmental and social sustainability of the planet. To control these impacts, it is important to understand the principles of sustainability in engineering design. We would like your help in designing a graphic that can be used on a poster to help us illustrate the value and importance of this area.*

What is needed?	Design a graphic or poster that best represents the importance of sustainability in engineering, for use on WPI promotional materials.
What are the Guidelines?	Must be suitable for use on the web or on a 18" x 24" poster. The design must be your own original work
Who is eligible?	Current WPI students

## Deadline – January 22, 2018

Submitting the graphic: Submit an email to [green@wpi.edu](mailto:green@wpi.edu) no later than 1/22/18 and be sure to include "Sustainability Graphics Competition" in the subject line. You can include your poster design as an attachment (a pdf or powerpoint slide is preferred)

**Prize – WPI Sustainability Gift Collection  
(including Zipcar membership, dining gift package, reusable water bottle & reusable coffee cup, and one or two small items.)**
